Re: The Boulder Canyon Project Post – 2017 Application of the Energy Planning and Management Program Power Marketing Initiative

Dear Mr. Moe:

The Town of Marana owns a Municipal Water Utility organized under the laws of the State of Arizona and recognized as a Federal Preference Customer. The Town of Marana is interested in pursuing additional hydropower resources and expanding its green energy usage as part of the reallocation of Hoover Power resources. The Town's projected municipal load is estimated to be 3 megawatts in 2017; a 50 year term would be preferred.

The Town would like to participate in the Hoover Power reallocation process. Please contact the General Manager Public Services, Barbara Johnson, with any questions as this process moves forward. Her contact information is [bjohnson@marana.com](mailto:bjohnson@marana.com) or 520-382-2602.

We look forward to working with you and your staff in this process.

Sincerely,

Gilbert Davidson  
Town Manager
